

2011 Aug 11

J. Verbiest reports that apparently (the antennas at) RCUs 179 and 181 seem to be oscillating every now and then. I.e. generate so much power that it dominates the formed beam.

2011 Aug 08

Klaus Schlich replaced the broken RCU 185:

old S/N:38001019

new S/N:38001051

2011 Aug 05

According to Alex Kraus one of the LBA antennas was found toppled over after one of the cable ties broke. Alex fixed this with a replacement cable tie.

1) Set up Observer Accounts

J. Anderson and A. Horneffer set up observer accounts on the data taking PCs and the LCU. For observations please use the account "observer" on the lofar1, lofar2, lofar3, lofar4 PCs and "user9" on the LCU.

2) Set up RAID on lofar2

J. Behrend configured the RAID0 on lofar2, which had been unavailable since some disks broke.
