1) Download the software package to the DBBC and unpack it

2) Copy files

dbb2_pfb_v16_010916_1_adbX.bit -> C:\DBBC_CONF\FilesDBBC (Choose adbX = 1or 2 depending on your ADB version)

dbbc_poly_config_file_16.txt -> C:\DBBC_CONF

adb3l_reset.exe -> C:\DBBC\bin

DBBC2 Control PFB v16_010916.exe -> Desktop

3) Edit configuration file

- Consult the DBBC documentation about the appropriate settings

- The last two lines are new to V16 and can be left unchanged.

4) Calibrate the DBBC2

- For performinng the calibration follow these instructions

- Update your configuration file (dbbc_poly_config_file_16.txt) with the numbers obtained from the calibration
