These are notes for the first go on replacing gxhive with ansible.

Setup

ansible master: frontend

ansible installed in a pythynv virtualenv. Activate with;

source /root/venv/ansible/bin/activate

Ansible files are stored under /root/ansible-cluster

Structure

Tried to follow best pratices directory layout; see: https://docs.ansible.com/ansible/2.8/user_guide/playbooks-best-practices.html

Setup 1
